

HARSH RATHORE

Software Developer | QA Engineer | B.Tech CSE 2027

ABOUT ME

Motivated B.Tech Computer Science student targeting entry-level Software Development or QA Engineering roles in Noida/Delhi NCR. Passionate about writing clean, efficient code, identifying bugs, and building user-centric applications. Seeking to apply hands-on experience in full-stack web development and software testing, including manual and automation testing, to contribute to a fast-growing tech team.

PROJECTS

Campus Bite – Canteen Automation System 2026

Tech Stack: React.js, MongoDB, Tailwind CSS, JavaScript

- Designed and developed a full-stack web application to digitize and streamline food ordering in college canteens, reducing manual errors by an estimated 60%.
- Implemented core features: online menu browsing, digital payment integration, and real-time order tracking dashboard for canteen staff.
- Built an AI-assisted rush-hour prediction module that analyzes peak order times and suggests optimal preparation schedules.
- Developed a group ordering feature enabling students to place combined orders, and an automated discount/loyalty system to reward repeat users.

PlaceRise – Student Placement Portal 2026

Tech Stack: React.js, Tailwind, JavaScript, MongoDB

- Built a placement portal to connect students with internship and job opportunities posted by companies visiting the campus.
- Implemented student registration, resume upload, and application tracking features with admin panel for placement coordinators.
- Integrated automated email notifications to alert students about application status updates and interview schedules.
- Designed responsive UI using CSS Flexbox/Grid ensuring compatibility across desktop and mobile devices.
- Wrote 30+ manual test cases covering registration, login, and application flows; reported and tracked 15+ bugs using structured bug reports.
- Performed automation testing for core UI flows using JavaScript-based tools (Jest, React Testing Library) to validate component behavior and reduce regression risk.

TECHNICAL SKILLS

Languages: JavaScript, Python, Java (Basics), HTML5, CSS3

Web & Backend: HTML5, CSS3, React.js, Node.js, Flask

Database: MySQL, MongoDB

QA & Testing: Software Testing, Manual Testing, Test Case Writing, Bug Reporting, Automation Testing (JavaScript, React – Jest, React Testing Library, Selenium WebDriver)

Tools: GitHub, VS Code, Postman

CERTIFICATIONS

Web Development Bootcamp — Udemy, 2023

Introduction to Software Testing — Coursera, 2024

Python for Beginners — Coursera, 2024

EDUCATION

B.Tech – Computer Science

Dev Bhoomi Uttarakhand University | 2023 – 2027 | 75% (Expected)

Class XII – CBSE, 2023

New Horizon School | 67%

Class X – CBSE, 2021

New Horizon School | 72%

SOFT SKILLS

Leadership | Team Collaboration | Critical Thinking | Time Management | Communication | Problem Solving

LANGUAGES

English – Fluent Hindi – Native
